RE: TOWN OF LEICESTER PUBLIC WATER SUPPLY SURVEY

Dear Resident, Business, or Property Owner:

Providing public water to parts of the Town of Leicester has been a long-standing discussion of various Town Boards over the last few decades. This communication is intended to give you a brief overview of the most recent efforts to consider a public water project in the Town of Leicester and current steps the Town Board is taking to receive valuable feedback from the community moving forward.

The Town Board has enlisted the assistance of the Livingston County Water and Sewer Authority to facilitate a public engagement process to obtain needed feedback for the Town Board to consider a water project. A webpage https://lcwsa.us/town-of-leicester has been dedicated to sharing information regarding public water and seeking feedback from residents. The webpage includes a survey, the proposed location, and some frequently asked questions.

Both property owners and tenants are encouraged to complete the survey. Property owners may complete the survey for each parcel they own. The information obtained from the survey will be used by the Town Board to determine if public water should be pursued and what areas should be included. The survey is web based and can be accessed through the link or QR code below. If you would prefer to complete a paper copy of the survey, please contact Sarah Wright at swright@lcwsa.us or call 585.346.3523, and one will be mailed to you. Please complete the survey by September 30, 2024.

Residents are encouraged to review the information available online and provide feedback through the webpage and online survey. Your feedback will inform the Town Board as they consider a potential public water project. We look forward to hearing from you!

Sincerely,

Jason Molino
Executive Director
